

The background of the page is a photograph of a mountain valley. A river flows through a rocky gorge in the foreground, surrounded by dense green vegetation. The valley opens up into a misty, hazy landscape with steep, forested mountainsides. The overall tone is somewhat somber and atmospheric due to the mist and muted colors.

POLITICAL SCIENCE HONOURS DEGREE ACADEMIC REQUIREMENTS

PS Honours Graduation Requirements - Cohort 2016 Onwards

Pass at least 84MCs of PS or PS recognised modules, which include the following:

1. PS1101E
2. PS3257
3. A minimum of ONE* module from the following (Singapore Politics):
 - a. PS2249 (CP)
 - b. PS2244 (GPP)
 - c. PS3249 (IR)

The above may be used to fulfil requirement (4)

4. A minimum of ONE module from each of the following subfields:
 - a. Comparative Politics (CP)
 - b. International Relations (IR)
 - c. Political Theory (PT)
 - d. Governance and Public Policy (GPP)
5. A minimum of 60MCs at level 3000 or higher, with
 - a. a minimum of 40MCs at level-4000 or higher and
 - b. a maximum of 2 level-5000 PS modules (subject to department's approval)
6. A minimum of 64 MCs in PS-coded modules (including PS3257)
 - a. PS modules only, PS-recognised modules does not count
7. A maximum of 16MCs may be double-counted from the secondary major towards the PS Major

Undergraduate students are not permitted to read Level-6000 modules.

Level 5000R Modules

Honours students will be allowed, in place of their Level 4000 modules, a maximum of 2 Level-5000R modules (subject to additional module pre-requisites, if any), to fulfill graduation requirements. Honours students are not allowed to read Level 5000 Independent Study Module (PS5660).

Honours Thesis (HT) – PS4401

The Honours Thesis (HT) is not a compulsory requirement for an honours degree except in the case of first class honours. In order to attain an Honours (Highest Distinction) degree, students must pass the HT (D grade or higher) and attain an overall CAP of 4.50 or higher.

SOC4 students who do not wish to do the HT, but who wish to do some independent reading or research work can do an Independent Study Module (ISM) at level-4000.

Mapping of Level 4000 modules at SEP

Students are allowed to read a maximum of two Level-4000 modules on Student Exchange Programme (SEP). The module mappings have to be approved by the SEP coordinator via the SEP module mapping request function in the SIS system or via the manual module mapping forms.

MC Exchange Ratio: <http://www.fas.nus.edu.sg/international-relations/undergraduates/student-exchange-programme/mc-exchange-ratios-for-sep.html>

To be mapped to a Level-4000 module code with 5 MCs, the SEP module must be worth at least 4 MCs when converted using the MC exchange ratio. If the SEP module is worth at least 4 MCs, FASS Dean's Office will add 1 more MC to make it a total of 5 MCs just like any other Level-4000 modules in NUS.

If the SEP module is worth less than 4 MCs when converted using the MC exchange ratio, your approved Level-4000 module mapping will only be given the amount of MCs that is converted using the ratio. You need to do more PS Level-4000 modules to make up the shortfall when you return to NUS.

If you are unsure, you may check with FASS Dean's Office (studyabroadfass@nus.edu.sg) to confirm how much MCs that you will map back to NUS.

LIST OF HONOURS MODULES AY2020-2021

Level-4000 and 5000R Modules

Semester 1, AY2020/2021			
Module Code	Module Title	Subfield	Lecturer
PS4201	CONTEMPORARY POLITICAL THEORY	PT	Matthew Lepori
PS4203	CHINA'S FOREIGN POLICY	IR	Chong Ja Ian
PS4209	PUBLIC ORGANISATION THEORY AND PRACTICE	GPP	Shamsul Haque
PS4229	THE POLITICS OF KNOWLEDGE	PT	Luke O'Sullivan
PS4237	CAPITALISM AND POLITICAL THEORY	PT	Matthew Lepori
PS4239	SEMINAR IN INTERNATIONAL RELATIONS OF SOUTHEAST ASIA	IR	Deepak Nair
PS4881D	MONEY AND POLITICS	CP	Kim Hyejin
PS4881G	POLITICS OF THE KOREAN PENINSULA	CP	Kim Hyejin
PS4881H	SELECTED TOPICS IN CHINESE POLITICS	CP	Chen An
PS5111/ PS511R	RESEARCH DESIGN IN POLITICAL SCIENCE	METHODS	Soo Yeon
PS5313/ PS5313R	SEMINAR IN STATE AND SOCIETY	CP	Jamie Davidson
PS5314/ PS5314R	SEMINAR IN INTERNATIONAL RELATIONS	IR	Chong Ja Ian

Semester 2, AY2020/2021			
<i>(This is a tentative timetable, note that there may still be changes)</i>			
Module Code	Module Title	Subfield	Lecturer
PS4205	CONTEMPORARY POLITICS OF SOUTHEAST ASIA	CP	Jamie Davidson
PS4206	REGIONAL SECURITY IN THE ASIA PACIFIC	IR	Soul Park
PS4211	POLITICAL THEOLOGY	PT	William Bain
PS4216	STUDY OF WAR	IR	Soul Park
PS4219	COMPARATIVE POLITICAL THOUGHT	PT	Dunya Lepori
PS4224	STATE AND SOCIETY	CP	Dr Kevin McGahan
PS4228	COMPARATIVE DEMOCRATIC POLITICS	CP	Chen An
PS4231	SOCIAL THEORY AND INTERNATIONAL RELATIONS	IR	Ted Hopf
PS4233	EXISTENTIALIST POLITICAL THOUGHT	PT	Ethan Putterman
PS4882H	TOPICS IN IR : FOOD POLITICS	IR	Kim Hyejin
PS4883A	TOPICS IN PT : ORIENTALISM AND FEMINITY	PT	Dunya Lepori
PS5316/ PS5316R	SEMINAR IN PUBLIC ADMINISTRATION	GPP	Gao Jie
PS5506/ PS5506R	GLOBALIZATION AND PUBLIC GOVERNANCE	GPP	Shamsul Haque
PS5603/ PS5603R	INTRODUCTION TO QUALITATIVE METHODS	CP	Ted Hopf

Non-PS-coded modules that are recognised towards PS Major

You may refer to the list of officially recognised modules for PS Major Requirements here: <http://pol.nus.edu.sg/undergraduate/modules-listing-by-subfields.html>

- Refer to the respective subfield list in the dropdown box
- E.g. a non-PS-coded module in the list (e.g. JS4227 Japanese Political Economy would be recognised for PS Major Requirements under CP subfield).

Please check from NUSMODS to check if any of these recognised non-PS-coded modules are offered in Semester 1 & Semester 2, AY2020/2021 here: <https://nusmods.com/modules>

REGISTERING FOR HONOURS MODULES

Module Registration Exercise

ModReg@EduRec is a new system implemented by the University in Sem 1 AY2019-20. It employs a rules-driven, priority-based engine to allocate modules based on each student's:

- Curricular needs;
- Seniority in the programme; and
- Module preferences

Rules-Driven: Curricular Needs

In defining a student's curricular needs, rules are set to take the different programme requirements (e.g., Faculty, Major, Specialisation, Second Major, Minor, Core vs Elective modules) into consideration. These rules ensure that priority is, first and foremost, accorded to a student who needs a particular module to fulfil his or her programme requirements.

Priority-Based: Student Seniority

Beyond curricular needs, as senior students have a more limited time than junior students in securing modules before graduating from the University, priority is assigned to them. For undergraduate students, seniority is based on the year of study (e.g., Year 1 vs Year 4) while for graduate students, seniority is based on the total number of modular credits (MCs) they have completed to date.

Priority-Based: Module Preferences

A student's preference for a particular module is also taken into consideration. This recognises that one student's desire for a module may be different from another. Hence, priority is accorded to the student who ranks a module higher than another.

A **Priority Score** is computed for each module selected by students based on the above factors.

In short, SOC4/ARS4 PS students will be given priority for the level 4000 modules to ensure that they are able to graduate timely. If there are remaining places after round 1, then AR3 students will get to register for the modules.

PS major students who have met the following requirements will be promoted by FASS Dean's Office to SOC4/ARS4 status, and they will be able to bid for PS Level-4000 modules from Round 1 of the Module Registration Exercise.

SOC4/ARS4 Promotion Requirements (Cohort 2016 onwards)

1. Complete at least 110 MCs including 44 MCs of PS major requirements
2. Obtain a minimum CAP of 3.20.

ARS3 students (completed at least 80 MCs including 28 MCs of PS major requirements, and a minimum CAP of 3.20) will only be able to bid for PS Level-4000 modules from **Round 2 onwards**.

The MODREG Guide can be found here at:

<http://www.nus.edu.sg/registrar/info/specialterm/ModReg-Student-User-Guide.pdf>

Returning Year 4 PS major students from Student Exchange Programme (SEP)

Only FASS Dean's Office can approve the SEP credit transfer and promote you to SOC4/ARS4 in the ModReg System. Remember to submit all your required documents to Dean's Office once you have completed your SEP, so they can process the credit transfer and promote you accordingly in time before the module registration exercise.

Refer to <http://www.fas.nus.edu.sg/international-relations/undergraduates/student-exchange-programme/upon-return.html> for more details on what to submit upon return from SEP.

Some of you may face delays in mapping the credits back in time for promotion to SOC4/ARS4 (e.g. SEP transcript is not ready or there are too many SEP credit transfers pending processing by Dean's Office, etc.). This delay will result in your seniority status being reflected as ARS3 or even ARS2 on the ModReg page **and the system will not allow you to bid for level-4000 modules in Round 1 as you are not in ARS4 Yet.**

To solve this, please refer a snippet of the ModReg FAQs for Undergraduate Students:

For Undergraduate Students

General

1. I have just returned from the Student Exchange Programme (SEP) last semester. As my credits transfer is still pending the official transcript from the overseas university, I am still indicated as a Year 3 student when I should be in Year 4. How can I overcome this?

Students who are back from SEP but awaiting the Partner University's (PU) transcript for official credit transfer may access the EduRec Global Education page to "declare" that they have completed the modules while on exchange. This action will trigger the pseudo-promotion process. Based on the cumulative MCs declared to have been completed, students may be pseudo promoted to the next level of seniority for the purpose of ModReg.

Do note that the pseudo-promotion process is a transient measure to adjust the seniority of students who have completed their SEP (but pending official credit transfer) temporarily. Students are still required to complete the official credit transfer process expeditiously to ensure correct representation of their degree requirement fulfilment.

False declaration(s) may subject a student to disciplinary actions.

Please refer to the step-by-step guide (PDF / video) to complete the pseudo promotion declaration process.

Taken from: http://www.nus.edu.sg/ModReg/faqs_undergraduate.html

You may view your seniority level at the MODREG [Select Module] page.

****Registration for PS4401 Honours Thesis (HT) and PS4660 Independent Studies Module (ISM) will be via manual application, you do not have to register for the module on ModReg. Please refer to the section on HT and ISM for registration details.**

Level 5000R modules

There is no registration for PS Level 5000R modules. Registration is via manual application. We will send out an email on Level-5000R module registration before the ModReg exercise.

Only PS students who meet SOC4/ARS4 requirements can apply for PS Level-5000R modules. Approval is granted on a case-by-case basis. Priority will also be given to graduate students.

If your application is approved, we will inform you via email and pre-allocate the Level-5000R modules for you into the ModReg system.

You may attend classes while pending the application outcome.

Appeals for Honours modules

There are 2 main types of appeal with regard to selection of modules.

1. Issues while selecting modules

Please use this appeal only if you are

- a. Unable locate the module despite typing in the correct module code.
- b. Able to view the module after keying in the module code, but when you click on the "Select" button, a prompt comes out with the error "*Unable to select module as you have not fulfilled the module pre-requisites*".

2. Unable to secure module

You may submit your appeal on ModReg at the end of Round 3 if you failed to secure the module you want. Please continue registering and ranking the module you want at the top until the end of Round 3. We are unable to process module appeals after the rounds itself because we will need to wait until the end of round 3 so that we can see how much quota we have left to help appeal cases.

Submit an online module appeal via the ModReg System after Round 3.

The following appeal types will be available on ModReg after the round 3 has ended.

- Unable to secure module

Please indicate how many more modules you will need and list down a list of honours modules that you are willing to be considered for (ranked by choices).

Honours students who will be graduating in that semester will be given first priority during appeals.

While pending outcome of your appeal, please attend the first class and inform the lecturer that you are appealing for the module. Because you have shown enthusiasm and interest to take the effort to attend the 1st class, sometimes, the lecturer may take down your names and request for us to add your name into the class (thereby helping your appeal).

Waiver of pre-requisites for Honours modules or maximum/minimum workload

For some PS-Level 4000 modules, there are prerequisites. If you do not meet the module pre-requisite and would like to request for a waiver of the pre-requisite (e.g. you have read other similar modules in the same subfield). You may write to the lecturer directly to appeal to read their module. If they are agreeable, please forward the approval email to the department (ryan_tan@nus.edu.sg and polnyjw@nus.edu.sg) and we will waive the pre-requisite for you in the ModReg system so that you can bid for the module in the next round.

Students who wish to apply for maximum workload wavier or to underload should send their appeals to FASHelp@nus.edu.sg together with their study plans and reasons for doing a higher/lower workload. Only upon approval by Dean's Office can the Department then add/remove the additional/unnecessary modules for you.

HONOURS THESIS (HT) – PS4401

What is an Honours Thesis?

An HT is an independent research project that addresses an important question or puzzle, and provides a strong argument based on sound and substantial empirical evidence.

It is a major research undertaking at an undergraduate level, and requires far more effort in terms of originality, detail, clarity and independence than an ISM or a normal module essay.

Each HT will carry 15 modular credits. This requires the student to work on the HT for a total of 37.5 hours per week.

The subject of the HT must fall within one of the four main sub-fields in the Department:

1. Comparative Politics (CP)
2. International Relations (IR)
3. Political Theory (PT)
4. Governance and Public Policy (GPP)

The HT will be examined on the basis of several criterion including:

1. Presentation
2. Coherence and consistency
3. Comprehensiveness (including the use of primary sources)
4. Factual accuracy
5. Writing discipline

The usual conventions pertaining to any research (for example, footnoting, bibliographic sources and appendices) must be followed.

Qualifying Criteria

HT is only available for PS Honours students in their **Final Graduating Semester** and it must be completed in that semester.

Pre-requisite

(Cohort 2015 and earlier):

The prospective HT student must have completed 110 MCs, including 60 MCs of PS major requirements with a minimum SJAP of 4.00 and CAP of 3.50.

Students may seek a waiver of the SJAP pre-requisite from the department if they have a minimum CAP of 4.25 after completing 110MCs.

(Cohort 2016 and after):

Completed 110 MCs, including 44 MCs of PS major requirements with a minimum SJAP of 4.00 and CAP of 3.50.

Students may seek a waiver of the SJAP pre-requisite from the department if they have a minimum CAP of 4.25 after completing 110 MCs.

Preclusion

PS4660

Registration

An email will be sent to Honours students, inviting applications to read an HT.

Students are responsible for drawing up a proposal of the intended HT based on the application form attached in the email. The application form should include a proposed HT title, a synopsis of the intended study and the name of the proposed supervisor.

The submitted proposal should comprise the following:

- Research question or puzzle, and its significance or originality,
- Hypothesis or argument and its significance, and
- Feasibility of this research project
- Timeline of your research plans

Preparation is very important. Students are strongly encouraged to start working on a proposal and undertake necessary preliminary research for it as soon as possible.

Advance Registration of HT for Semester 2

There is no Advance Registration for HT submission in every Semester 1 of the academic year. Advance Registration of HT is only available every semester 2.

An email for “Advance Registration for HT submission in Semester 2, AY2020/2021” will be sent out in September 2020.

Students can use their Semester 2, AY2019/2020 exam results for this Advance Registration of HT. You will qualify if you have completed 110 MCs, including 60 MCs of PS major requirements with a minimum SJAP of 4.00 and CAP of 3.50.

HT can only be formally enrolled in the **Final Graduating Semester** even if the HT is approved already in the first semester under advanced registration. Hence the department will only pre-allocate PS4401 to you during Semester 2, AY2020/2021. Please check to ensure that you have been enrolled for this module during the module registration exercise.

If you wish to withdraw, you should let us know before we pre-allocate the HT.

Students approved under advanced registration are still required to read the minimum workload of 20 MCs stipulated by the University in the first semester (Semester 1 AY2020/2021).

Although the module formally “commences” in Semester 2, students are strongly recommended to start refining their topics, in consultation with supervisors, upon receiving the approval from the Department.

Supervisor

The role of the supervisor is to provide general guidance on the research topic. Students should not expect their supervisors to correct grammatical errors. You are primarily responsible and independent for the standard of research and presentation.

The normal procedure is for each supervisee to be assigned to one formal supervisor. The frequency of contact between supervisor and supervisee is a flexible arrangement to be worked out between themselves.

As much as possible, the supervisor should be from within the Department. In cases where the supervisor has to be from another Department, please provide strong reasons for doing so and to email the consent of the external supervisor to (ryan_tan@nus.edu.sg and polnyiw@nus.edu.sg) for the Department’s consideration. The Department reserves the right to approve or disapprove applications for HTs and has the final say on the assignment of supervisors for the proposed HTs.

You must inform the department if you would like to change your HT supervisor after the Department’s approval have been given. Approval for you to change your supervisor will be at the discretion of the Honours Committee.

Submission

Word Count

The word limit for the thesis is **12,000 words** (excluding cover page, content page, and abstract, list of abbreviations, acknowledgement, preface, footnotes, endnotes, appendix and bibliography).

To ensure that the thesis adheres to this limit, you are encouraged to use the word count function in your word processing programme regularly, both when writing the thesis and when making corrections.

HT supervisors are expected to monitor the word count and help students keep within the word limit.

The penalty for excess words in the thesis is as follows:

1)	1 – 999 words	1.0 mark
2)	1,000 – 1,999	2.5 marks
3)	2,000 – 2,999	5.0 marks
4)	> 3,000 words	7.5 marks

The penalty scheme will be strictly enforced. Please be aware that even minor penalties can change the grade in an HT or ISM and, in some cases, the class of Honours awarded.

Report Format

1. Each thesis, in general, should include cover page, abstract, acknowledgement, list of abbreviations (if any), contents, main text (all chapters), bibliography, and appendix (if any).
2. The main text in the report should be typed using a general font (i.e. Arial, Times New Roman, Calibri etc), with a font size of 12.
3. For presentation and professionalism, single-sided printing format is preferred.
4. You should follow the Chicago Manual of Style for references – with reference number(s) in the text and corresponding reference(s) at the bottom of each page. In addition, you should compile all references used into the bibliography. An online version is available via NUS Library at <http://libguides.nus.edu.sg/c.php?g=145569&p=955494>. You may also use some of last year's theses as examples in this regard. Past theses can be found in the NUS Library ScholarBank at <https://scholarbank.nus.edu.sg/>.
5. Please submit the following by the stipulated deadlines
 - a. 2 x plastic ring-bounded copies to the department general office
 - b. Upload 1 x Microsoft Word file in LumiNUS (for word count and plagiarism check purposes)
 - c. Upload 1 x PDF file in LumiNUS (for submission to NUS Library ScholarBank)
6. Penalties will be imposed for late submissions.
7. For illustrations of the Cover Page, Spine of HT and Title Page, please refer to Appendix A, B and C. When in doubt, consult the Central Library for a model copy of the HT. You can refer to this website <http://libguides.nus.edu.sg/polsci> and click on "Theses" at the top, and do a search for a particular HT title and the location in the Central Library.
8. Theses from Semester 1, AY2017/2018 and earlier can be found in hardcopies in the NUS Central Library. Theses from Semester 2, AY2017/2018 onwards will be in softcopy format on ScholarBank@NUS.

Plagiarism

Plagiarism (including self-plagiarism) will **NOT** be tolerated. Since the HT is equivalent to 15 modular credits (3 Honours seminars), it should be taken seriously.

Students found guilty of plagiarism will be severely penalised. Such cases may be referred to the University's Board of Discipline (BOD).

Please refer to the following link on plagiarism matters:

<https://myportal.nus.edu.sg/studentportal/fas/ug/policies/plagiarism/index.html>

INDEPENDENT STUDY MODULE (ISM) – PS4660

What is an ISM?

The ISM is available only for PS Honours students in their **Final Graduating Year**.

For students who do not wish to do the HT, the Independent Study Module (ISM) at level-4000 gives senior students a chance to do some independent critical reading or research work.

Each ISM will carry 5 modular credits. This requires the student to work on the ISM for a total of 12.5 hours per week.

The student is responsible for drawing up a broad proposal of the intended ISM. This proposal should fall into one of the four sub-fields in the Department:

1. Comparative Politics (CP)
2. International Relations (IR)
3. Political Theory (PT)
4. Governance and Public Policy (GPP)

Students may opt to form a “Group ISM” consisting of 2 to 3 students, supervised by a single lecturer. Although group members will work on a single broad theme or topic, it is expected that each member will focus on different substantive areas and submit his/her own written ISM report. For example, a group might be working on the topic of “technology and political violence”, but each member may focus on 3 different regions or countries where the theme might be applied, and submit their own ISM report.

Qualifying Criteria

Pre-requisite (Cohort 2016 onwards):

Completed 100 MCs including 60MCs in PS, with a minimum CAP of 3.20.

Pre-requisite (Cohort 2012 – 2015):

Completed 100 MCs including 60MCs in PS, with a minimum CAP of 3.20.

Preclusion

PS4401

Registration

An email will be sent to all Honours students, inviting applications to read an ISM.

Students are responsible for drawing up the proposal of the intended ISM based on the application form attached in the email. The application form should include a proposed ISM title, a synopsis of the intended study and the name of the proposed supervisor.

Supervisor

In an ISM, the supervisor's role is that of a facilitator.

The primary responsibility for work on the ISM, including the final product, is with the student. Students should bear in mind that this is a Level-4000 ISM and the work required, and subsequently graded, will reflect this.

The nature of the work for the ISM is to be determined through discussion and agreement between the supervisor and the student. The frequency of contact between supervisor and supervisee is a flexible arrangement to be worked out between themselves.

The Department reserves the right to approve or disapprove applications for ISMs and has the final say on the assignment of supervisors for the proposed ISMs.

You must inform the department if you would like to change your HT supervisor after the Department's approval have been given. Approval for you to change your supervisor will be at the discretion of the Honours Committee.

Submission

Students are required to submit an essay of between **5000-6000 words**. Please submit to the Department:

Please submit the following by the stipulated deadlines:

- 1 x plastic ring-bounded copies to the department general office
- Upload 1 x Microsoft Word file in LumiNUS (for word count and plagiarism check purposes)
- Upload 1 x Adobe PDF document in LumiNUS (for uploading to ScholarBank – If you do not want to upload your Thesis to ScholarBank, you do not need to do this step).

Formatting:

The main text in the report should be typed using a **general** font (i.e. Arial, Times New Roman, Calibri etc), with a **font size of 12**.

For presentation and professionalism, single-sided printing format is preferred.

Printing & Binding:

The left margin should be 4.0 cm wide. The top, bottom, and right margins should be 2.5 cm wide.

Refer to the following diagram.

Plagiarism

Plagiarism (including self-plagiarism) will **NOT** be tolerated.

Students found guilty of plagiarism will be severely penalised. Such cases may be referred to the University's Board of Discipline (BOD).

Please refer to the following link on plagiarism matters:

<https://myportal.nus.edu.sg/studentportal/fas/ug/policies/plagiarism/index.html>

PENALTY POLICIES FOR HT & ISM*

These penalty schemes will be **strictly enforced**. Please be aware that even minor penalties can change the grade for an HT/ISM and, in some cases, the class of Honours awarded.

Change/Alteration of title after deadline for title confirmation

The imposition of a title confirmation 2 weeks before its submission is a test of professionalism and discipline.

A **1% mark penalty** will be imposed on the final mark if there is a change of title for HT or ISM after the title change submission due date.

Late submission of HT or ISM

Important Note: Penalties will be **strictly imposed** for late submission of the ring-bounded copies of the HT and ISM. The contents in the plastic ring-bounded copy must be **exactly the same** as the softcopies uploaded onto IVLE. Penalties will be imposed for any changes after submission.

Two-Step Penalty System for Late Submissions

- A **daily 5% deduction** from the final mark, cumulative up to 7 working days (or a maximum of 35% of the final mark)
- Rejection of HT/ISM on the 8th working day onwards.

Waiving Penalties for Late Submission

Time extensions may be granted and/or penalties may be waived by the Honours Committee (in consultation with your supervisor) if early (i.e. on or before the HT/ISM submission deadline) documented explanations are given. Valid documents include medical certificates (MCs), psychiatric reports or letters by other certified medical professionals and government bodies (e.g. MCs or doctor's letter from UHC).

Written appeals with valid documentations submitted after the HT/ISM submission deadline will be subject to the approval of the Honours Committee (in consultation with your supervisor).

Exceeding the Word Count of the HT[†]

As stated before, the penalty for excess words in the thesis is as follows:

1) 1 – 999 words	1.0 mark
2) 1,000 – 1,999	2.5 marks
3) 2,000 – 2,999	5.0 marks
4) > 3,000 words	7.5 marks

* These applies only to PS4660 and does not extend to USP-ISMs coordinated by the University's Scholars' Programme (USP)

[†] PS4660 ISM is excluded from this set of penalties since it contains a wider set of discretionary practices.

ETHICS (INSTITUTIONAL REVIEW BOARD – IRB)

All undergraduate research (HT, ISM etc.) involving humans as research subjects must be subject to ethics review by the Departmental Ethics Review Committee (DERC).

This is important if you are planning to conduct interviews or surveys for your HT/ISM!

These research projects may be carried out by individual students and the results from such research may or may not be intended for publication or presentation outside the classroom. They include experimental protocols, **observational studies, interviews, questionnaires**, secondary use of data that are not in the public domain and research involving human remains, tissues, or biological fluids.

If your research falls within the categories listed above, please make an appointment with Wesley (polnyiw@nus.edu.sg) and he will guide you how to fill up the IRB forms for DERC approval.

Please make an appointment with Mr. Wesley Ngoi via email (polnyiw@nus.edu.sg) before you come to the PS General Office.

The Department Ethics and Review Committee (DERC) will determine whether the research can be exempted or expedited (minimal risk projects) or referred to the NUS-IRB for review based on the risk to the research participants.

Please note that ethics board approval, particularly if NUS IRB approval is required, can take anywhere from **one week to two months**. Students are advised to plan well in advance and undertake the necessary measures. **A copy of the ethics approval must be bounded within the thesis as an appendix.**

For any query and clarification on IRB, please send an email to Mr. Wesley Ngoi (polnyiw@nus.edu.sg).

HT & ISM DEADLINES

GENERAL DEADLINES FOR PS4401 HONOURS THESIS			
	Semester 1 Normal Registration	Semester 2 Advance Registration	Semester 2 Normal Registration
HT Application Email sent out	15 Jun 2020	7 Sep 2020	14 Oct 2020
Application Submission Deadline	15 Jul 2020	5 Oct 2020	14 Dec 2020
Deadline to change HT title and/or synopsis	Week 8, Semester 1 11 Oct 2020	Week 8, Semester 2 14 Mar 2021	Week 8, Semester 2 14 Mar 2021
*Submit 2 plastic ring bound HT copies	Last working day of October, 30 Oct 2020	Last working day of March 31 Mar 2021	Last working day of March 31 Mar 2021
*Upload softcopy of HT into LumiNUS work bin			
IRB Application Submission	As soon as possible once your HT proposal is approved by the department. Interviews and surveys may commence only <u>after</u> IRB approval is given.		

**Non-negotiable deadlines*

GENERAL DEADLINES FOR PS4660 ISM		
	Semester 1 normal registration	Semester 2 normal registration
Start of ISM Application	15 Jun 2020	14 Oct 2020
Application Deadline	15 Jul 2020	14 Dec 2020
Deadline to change ISM title and/or synopsis	Week 8, Semester 1 11 Oct 2020	Week 8, Semester 2 14 Mar 2021
*Submit 1 plastic ring bound ISM copy	Last working day of October 30 Oct 2020	Last working day of March 31 Mar 2021
*Upload softcopy of ISM onto IVLE work bin		
IRB Application Submission	As soon as possible once your HT proposal is approved by the department. Interviews and surveys may commence only <u>after</u> IRB approval is given.	

**Non-negotiable deadlines*

PRIZES FOR HONOURS STUDENTS

Eligible Honours students may be nominated by the Department for the following Awards/Prizes:

Lee Hsien Loong Award for Outstanding All-Round Achievement (LHL-OAA)

The Lee Hsien Loong Award for Outstanding All-Round Achievement (LHL-OAA) was first implemented in 2010. The Award is presented to post-secondary students who have done well, both academically and non-academically, particularly those who have made outstanding contributions to the community and demonstrated the spirit of Innovation and Enterprise.

The LHL-OAA is awarded to one Singaporean fresh graduate/graduating student from each of the following four groups of educational institutions each year – Junior Colleges/Centralised Institute (JC/CI), the Institute of Technical Education (ITE), Polytechnics and Autonomous Universities (AUs). All schools from each of the educational institution group are required to nominate suitable candidates for the award. Following this, a selection panel chaired by MOE will decide the eventual recipients of the award through desktop and interview selections.

Nominations period: Jan/Feb every year (an email will be sent out by FASS Dean's Office).

Outstanding Undergraduate Researcher (OUR) Prize

https://myportal.nus.edu.sg/studentportal/fas/ug/deans_list/outstanding-undergrad-researcher.html

The Outstanding Undergraduate Researcher (OUR) Prize launched in AY 2006-2007 is an annual, university-wide competition which aims to encourage research among undergraduates at NUS by presenting opportunities for them to participate in research while integrating teaching and research at various levels of experience and expertise. This allows undergraduates to develop the capacity for discovery through research.

Through this competition, undergraduates will have more meaningful experiences at university by fostering learning through hands-on work. It also serves to develop their research skills for use in courses and other academic and professional pursuits; identify academic and career interests; learn about a new field; develop working relationships between classmates and faculty mentors; and provide them a glimpse of graduate life.

Department will rank and nominate students based on their HT and ISM results for both Semester 1 and Semester 2, AY2020/2021. There is no need to submit any self-nominations for your HT and ISM.

NUSS Medal for Outstanding Achievement

Since AY2009-10, the National University of Singapore Society (NUSS) has donated an endowed sum of \$105,000 for the award, "NUSS Medal for Outstanding Achievement", with the intention

to recognise one graduating student from each NUS Faculty/School for outstanding all-round achievements. The establishment of this award shall aid in fostering closer bonds between NUSS and the University and its alumni community. Each winner shall be presented with a gold medal and a NUSS membership with a one-year waiver of the monthly subscription. Each Faculty/School can select a winner, from each year's graduating cohort, who is an outstanding student having achieved academic excellence as well as made significant co-curricular contributions.

Nominations period: Feb every year. Students are to complete the online nomination form at: https://myportal.nus.edu.sg/studentportal/fas/ug/deans_list/nuss-medal-for-outstanding-achievement.html

Association of Malay Professionals (AMP) Prize

Department will nominate the best HT or ISM on any aspect that is of relevance to the Malay/Muslim community in Singapore.

Political Science Book Prize (SOC4/ARS4)

Department will nominate the best SOC4/ARS4 graduating student in Political Science. Value of the prize is S\$100 (cash prize).

Gerald De Cruz Memorial Prize

Department will nominate the **Top Honours Thesis (by overall score)** in Political Theory or Asian Politics. Value of the prize is S\$300 (cash prize).

Political Science Honours Thesis Prize

Department will nominate the **Second Best Honours Thesis (by overall score)**. The topic of the winning thesis can be in any of the 4 subfields offered by the department. Value of the prize is S\$200 (cash prize).

The Batul Izzuddin Global Citizen Prize

The award will be given to two graduating students from FASS Political Science or Global Studies who has not only demonstrated academic excellence but has also represented Singapore or their country of origin on the global stage doing the country proud in the process. Value of the prize is S\$250 (cash prize).

ADDITIONAL INFORMATION

Library Resources for Political Science

Political Science: Main

Resources in Political Science

Link: <http://libguides.nus.edu.sg/polsci>

- You will be able to find library resources related to Political Science (e.g. Journals, Theses, Citation Style & EndNote, Writing Guides, etc.).
- Library Tutorial for Political Science Honours Students
- You can search and locate Honours Theses written by our past PS honours students (all Political Science HTs stored in the library are required to have the grade of B+ and above). HTs from Semester 1, AY2017/2018 and earlier will be stored as hardcover copies in the NUS Library. HTs from Semester 2, AY2017/2018 onwards will be stored as softcopies in the ScholarBank@NUS.
- ISMs will not be stored.

Library Tutorial for Political Science Honours Year Students

Link: <https://libportal.nus.edu.sg/frontend/ms/teachingandlearning/student-support>

About the Tutorial:

This tutorial will be most useful for students embarking on their thesis or ISM paper. As these academic exercises are principally self-driven, you must know how to carry out your own research quickly, efficiently, and comprehensively.

Students doing general coursework modules only for their honours year are also encouraged to attend the session since the topics covered are applicable to any form of research you may be required to do.

The following topics will be covered during the tutorial. Come with your own research topic/question/proposal, if you have one, to put into practice what you will learn.

- The research process where information gathering is concerned,
- How to make better use of relevant Political Science indexes and databases,
- Introduction to other services available to Honours Year students.

Please bring your own laptops for this session as PCs will not be provided.

PS Honours Room (AS1-05-01)

AS1-05-01 used to be a designated room for Political Science Honours students to conduct their own self-study, reading and research. Due to room shortages, the room has been converted for staff/faculty's use.

Until we are able to locate a room, students are encouraged to use common facilities such as the library or common study rooms around the campus.

Contact Details

If you need any assistance regarding the PS Honours Year Programme, you may contact Wesley at email: polnyjw@nus.edu.sg. Or DID: at 6601 7964.

AN HONOURS THESIS/ISM* IN PARTIAL FULFILLMENT
FOR THE BACHELOR OF SOCIAL SCIENCE (HONOURS)
DEGREE

PRESENTED TO DEPARTMENT OF
POLITICAL SCIENCE

NATIONAL UNIVERSITY OF SINGAPORE

[ACADEMIC YEAR 2020/2021]

APPENDIX B

General Questions and Answers on HTs

1. How is writing an HT different from taking non-HT modules?

In writing an HT, the student needs to be much more independent and responsible than in the case of taking regular non-HT modules. The student has to demonstrate initiative and conduct serious and substantive research independently. This is often a lonely (and frustrating) journey.

The supervisor's role is to provide the student with appropriate advice along the way. From past experiences, some students were over-reliant on their supervisors for guidance at all stages of their research projects. You should attempt an HT **ONLY** if you are confident and ready to take on the enormous intellectual challenge that lies ahead of you. Writing an HT is far more challenging than taking three non-HT modules.

2. What is the difference between a HT and an Independent Study Module (ISM)?

Both projects are similar in that students must address an important question or puzzle, and provide a strong argument based on sound and substantial empirical evidence. The major difference is that writing an HT requires much more of your time and energy as an independent researcher. You should write an HT only if you are prepared to put in substantial investments in time and effort along with other necessary sacrifices over several months. You cannot complete writing an HT in just one month, let alone in a few weeks.

3. Would my decision not to read an HT affect my chances of gaining admission into a graduate school in the future?

Our department's graduate programme does not require applicants to write a HT during their undergraduate years. The requirements for graduate entry admission varies from one school to another, but as far as we know, most graduate schools require no more than a writing sample. However, you should still check with the graduate school of your interest to be sure.

4. What constitutes a strong HT proposal? How original should the proposal be?

Your proposal should be sufficiently detailed enough to convince your potential supervisor of its merits. For starters, you might submit an abstract via email, with a note explaining that you are ready to submit a more detailed proposal or to elaborate on it in a face-to-face meeting. You should also explain your reasons to the faculty member you have contacted on why he or she would be a suitable supervisor to help in your research. The success of the HT application depends, in no small part, on your communication and interactions with the potential supervisor, so you should place utmost importance on this process.

As you are still an undergraduate student, we do not expect you to generate a wholly path-breaking research question or answer. That said, within the limitations you face, you are required to come up with a question on which relatively little research has been done to date, and an argument original enough to pique the interest of your potential supervisor. Finding that kind of question and answer through a good deal of preliminary research is one essential part of any promising research project, and would help convince your potential supervisor that you are worth working with over a period of one semester. (Remember that the staff member would have to invest a substantial amount of his or her time in supervising any HT too.)

In addition to the originality of your question and argument, we look for evidence that you are adequately prepared to undertake your research project (How many relevant modules have you taken? Do you have any relevant internship or any other kind of relevant experience? How familiar are you with the relevant literature?), and feasibility of your proposed research (Is there enough literature/data available? Can the data be collected in Singapore within a reasonably short period of time? Does the research involve any fieldwork, and if so, where, and how much fieldwork?). You should also make sure that there is a reasonable match between your HT proposal and your potential supervisor's expertise, in terms of sub-fields (e.g., international relations, public administration), specific themes (e.g., corruption, democratization, migration), and/or regional/country specialization (e.g., Europe, China).

- 5. I have asked one faculty member to be my supervisor, and he/she said "no". Can I ask another faculty member? Can I keep on trying until I find someone who is willing to be my supervisor?**

You can, but if more than two faculty members say "no", it is possible that there may be significant problems with your proposal. In such situation, you may approach the faculty members who declined your request to find out why they are not able to supervise your thesis and request for some inputs where applicable to help you refine your proposal.

- 6. Can I submit a HT proposal and an ISM proposal concurrently?**

No, students can submit only one application (either a HT or an ISM), not both.

- 7. How many drafts am I expected to write if my application for a HT is successful? Is there a prescribed weekly number of hours I have to adhere to in writing my HT?**

It all depends on the student and his/her supervisor.

- 8. Are other professors other than my supervisor allowed to read my HT draft(s) and make comments to help improve my work?**

There is no rule against it. It is up to the student's supervisor and other professors to decide.

9. If extenuating circumstances occur during the course of writing my HT (e.g. severe illness) that causes me to take a leave of absence from NUS, am I allowed to defer my HT to a subsequent semester? Do I have to reapply?

Such requests will be considered by the Honours Committee (in consultation with your supervisor) on a case-by-case basis.

10. How are HTs graded?

As mentioned in the Honours Prospectus, the HT will be graded on its own merits and on several criterion such as presentation, coherence and consistency, comprehensiveness (including the use of primary sources), factual accuracy and writing discipline, etc.

11. Is there a minimum word limit?

There is no minimum word limit. Having said that, given the fact that a HT is worth 15MCs, it should be reasonably long and certainly longer than an ISM.

12. Can I use aesthetic designs in my HT?

There is no rule against aesthetic designs but we recommend that students should focus more on the contents and substance of their HT instead.

13. Does the word count include words in graphs and tables?

No. After you have done the graph and tables, you may consider pasting the graph and table as a picture file (jpeg) instead so that the word processing program does not count the words in the graph or table.

The word count also doesn't include words in your abstract, content page, references, bibliography, acknowledgements, etc.

The word count will start from the 1st word in your introductory chapter to the last word in your final concluding chapter (including words in your chapter titles).
