

Important Notice for Students Who Are Planning to Undertake PL3231, PL4401/PL4401HM or PL4660/PL4660HM

Students who are planning to undertake an empirical project course (PL4401/PL4401HM Honours Thesis, PL4660/PL4660HM Independent Study, or PL3231 Independent Research Project) in the coming academic year are advised to secure a supervisor as soon as possible and to start their project early. This is because many of such projects will now most likely have to seek ethics clearance from the NUS Institutional Review Board. A minimum of four weeks should be factored into the project timeline for this ethics clearance process.
