About the Course

The therapeutic use of sand has been used around the world since 1930. It has been found to be very effective in providing a non-verbal means for expressing, healing and transforming from struggles and challenges. This introduction provides the participants with a basic understanding of the theory and practical skills behind the use of Sandtray in working with their clients.

Through case discussion and experiential learning, participants will be guided in:

1. Setting up the sandtray therapy,
2. Selection of miniatures,
3. Expanding observation and inquiry skills, and abilities to track the sand play process,
4. Providing guidelines to conduct the sandtray therapy session.

Who Should Attend

This course is targeted at Practitioners who work with children and youths to improve their social integration, growth and development, emotional modulation and trauma resolution.
