## About the Course

Play Therapy is an evidence-based psychological treatment that utilizes play to assess, prevent, and treat psychological, social and emotional challenges. Though it is primarily used with children and young persons, the therapeutic principles of playful engagement and symbolic communications are effective with adults as well. During the 2 day workshop, the participants will experience key aspects of the play therapy and how children use play for their therapeutic processes.

## At the end of the course, participants will be able to:

1. Understand how children use play as symbols and metaphors for communication
2. Utilize play in therapy to facilitate expression, foster emotional well-being, enhance social relations, and increase personal strength
3. Explore how play can be used in both child led or therapist led theoretical approaches

## Who Should Attend

This course is targeted at Social Workers and all helping professionals who work with children and youths to improve their social integration, growth and development, emotional modulation and trauma resolution.

## About the Trainer

**MS JOANNE NG**  
**Senior Play Therapist**  
**Children's Cancer Foundation**

Joanne Ng is a Senior Play Therapist with Children's Cancer Foundation (CCF). She believes in the healing power of play and uses play therapy in her work with children who have cancer, as well as those who have experienced the death of a loved one from cancer. She has received specialized training in Sandplay Therapy, Theraplay®, Synergetic Play Therapy and Trauma-focused Cognitive Based Therapy (TF-CBT).

Apart from her clinical work, Joanne also trains and supervises fellow colleagues in her organization and external partners. She is a Registered Professional Member and Supervisor with Association for Play Therapy (Singapore) and a Certified Play Therapist and Supervisor with Play Therapy International (UK).
