

Singapore Ageing

Issues and Challenges Ahead

Ageing is a part of life that all Singaporeans must face and, in fact, all families will have their next of kins undergoing that life stage. *Singapore Ageing* assembles a team of researchers, administrators, practitioners, advocates and academics from varied social service and care sectors, to share their thoughts, concerns and future challenges faced by an ageing Singapore in different arenas.

With the Singapore demography showing a greying trend, it is increasingly vital for the government and the social, health and economic sectors to meet the needs of an ageing nation. The appropriate services and support have to be in place to respond to the issues faced by seniors. This edited volume serves as a useful resource for those who are working or researching in the field of ageing.
