

Professional Certificate in Clinical Practice – Dementia Care

Upskilling social workers in different stages of their careers and helping them stay relevant in the complex social landscape to better serve their clients.

About the Professional Certificate

The certificate provides knowledge and skills, through Person Centered Care principles, for practitioners to be more effective in their direct work with Persons with Dementia and/or caregivers.

At the end of the course, participants will be able to:

- Respect and recognize the decisions/ choices that persons with dementia can make in some aspects of their care.
- Gain understanding of the needs of persons with dementia through the illness trajectory.
- React appropriately and communicate effectively when caring for persons with dementia who display distressed or challenging behavior.
- Support the needs and provide engagements to persons with dementia with the aim of enhancing their quality of life.
- Engage persons with dementia in making future plans and decisions, as well as protect their interest.
- Allow care staff and caregivers in their journey with persons with dementia to provide continuing care to persons with dementia till end of life.
