

FASS Overseas Double and Joint-Degrees Bursaries/ Scholarships

FASS offers some double and joint degrees in collaboration with overseas universities. Such programmes requiring students to spend one or more semesters abroad, involve substantial additional costs. These bursaries are intended to help students admitted to these programmes ease the additional costs.

The award is valued up to a maximum of \$5000 per semester depending on the financial needs of the student.

Only eligible candidates offered double and joint degrees programmes with overseas universities will be invited to apply.
