OVERVIEW

Established in 2000, Singapore Management University (SMU) is internationally recognised for its highly interactive, collaborative and project-based approach to learning. This unique pedagogy creates the opportunity for students to immerse themselves in an array of multi-disciplinary courses that addresses Asian issues of global relevance.

Home to some 10,000 students, SMU comprises seven schools specialising in Accountancy, Business, Computing and Information Systems, Economics, Law, and Social Sciences, offering a wide range of bachelor's, master's and PhD degree programmes. SMU has newly added two colleges – College of Integrative Studies and College of Graduate Research Studies to its academic suite in 2022.

SMU's city campus enjoys strategic linkages with business, government and the wider community through its institutes, centres and labs.

COURSE ENROLMENT

Course enrolments are conducted via a bidding exercise in July (Term 1) and December (Term 2) each year. Only **undergraduate** courses from a prescribed list will be offered to SUSEP students (**Course Codes 001-499, 1200-4038**).

Students will be allocated 100 e-dollars (e\$100) each term (**one-time only**), for bidding of all their required courses. This empowers them to draw up their own timetable based on their recommended study plan (subject to constraints of curriculum requirements and the supply and demand of classes). Details and instructions related to course bidding together with the list of courses offered, shall be made available to students two to four weeks before the course bidding exercise. It is important that students understand the information, policies, and procedures to ensure a smooth bidding process.

Demand could be high for some courses, e.g. fundamental freshmen courses. Students are encouraged to be proactive and flexible in their study plans to optimise their bidding opportunities.

In preparation for the course bidding and enrolment, students are responsible for ensuring that they have:

1. Read the course-bidding guide and review the prescribed list of course offerings for the intended study term.
2. Obtained pre-approvals from the home university to enrol for their desired courses at SMU. Students are encouraged to obtain pre-approval for more courses than necessary in case their desired courses are fully subscribed.

3. Fulfilled the necessary pre-requisites for the desired courses. Students are required to consult and seek approval from the respective SMU course instructors on the fulfilment of pre-requisites (if any), before bidding for their courses. Students will not be allowed to enrol for, nor to continue with the course if the pre-requisites have not been met.

Course Catalogue:

For planning purposes, students may refer to the [Course Catalogue](#) for undergraduate course offerings from previous terms (**Course Codes 001-499, 1200-4038**). This catalogue serves as a reference only as not all courses listed will be offered to SUSEP students.

IMPORTANT:

- *Course enrolment strictly adheres to the SMU academic policies and guidelines. It is subject to the vacancies available, fulfilment of course pre-requisites (if applicable) and bidding outcome of the student.*
- *Course enrolment is not guaranteed. It is strongly advised that students should not be completing their final term of studies during their exchange at SMU. Their graduation may be at risk should they fail to secure their required courses.*

TRANSCRIPT

A digital transcript will be emailed to the student's SMU campus email, within three months after the release of the final examination results, i.e. **mid-March (Term 1) and mid-July (Term 2)**. The transcript will include the course title, course code and grade of the respective courses enrolled. No hardcopy of the transcript will be issued.

SMU does not send the digital transcript to any third party including the student's home university. Therefore, students are responsible for providing the transcript to their home university for credit transfer.

SMU is unable to accommodate requests for early release of the official digital transcript under any circumstances including students' graduation and higher education plan. Therefore, students are responsible to communicate and make their own arrangements with their home university based on the timeline stated above.

It is important for students to maintain their access to the SMU email account after they finish the programme. This is to ensure that they can retrieve the digital transcript before the email account expires. Charges are applicable if students need their digital transcript to be re-issued.
